

Find the mistakes in the following letter and correct them!

Dear Mr. Jackson

I write to you to say how angry I am with the state of the road outside my house. It's a really mess. A few days ago my neighbor has got the back wheel of her car stuck in one of the huge holes outside my gate. She was really upset and we will had to get two people from the garage to pull her out.

Why have we got these holes in the road? Well, because of the terrible weather we have late with all those ice and snow. But that was for two months.

So why haven't you done anything about it? You should send a road repair team around here as soon as possible. It will also be a good idea if you were better prepared in the future so you could get things done more quick.

I hope hearing from you very soon about this problem.

Nevertheless £10 seemed a lot for a guided walking tour, I paid like most of the others staying at the hotel. The tour was supposed starting at 9 o'clock, so we were getting a little angry and were just about to go and have a cup of coffee together if the guide finally turned up at reception 30 minutes late. She said she has left home in time but had to go back while she'd forgotten the tour maps - it was her first day on the job!

First of all, she wanted to know who of us already had maps and who didn't. We eventually started more than an hour behind schedule and started walking through the old town. However there were only about ten of us, I found it hard hearing her commentary because she was only talking to the three or four people closest to her. As we walked along I asked her if we can go and see a beautiful old church, but she replied that we had to stick to the timetable. After that, I decided I'd better rely to my own map and walk through the city myself.
